Double Tap Screen On and Off v1.1.3.2 - Android Easy Screen Unlock & Unlock App Complete Version - Ad-Free User Interface Fingerprint and facial unlocking systems nowadays are the most advanced as well as a faster way to unlock the device. But still, there are so many Android devices available on the market that do not have those features, for those devices this Double Tap Screen On and Off full software is the best option. The latest smartphone users can also taste the double-tap lock unlock features by enabling with this app. Using the power button to unlock the device is not a good option, because it may damage after so many times uses. And modern engineers have suggested using a secondary method to unlock smartphones, like using a double-tap to lock or unlock. Apart from the sensor of proximity, we will be explaining in this post another very easy way. The Double Tap Screen On and Off is a special Android tool designed by Kimcy929 and published on Google Play to enable and disable Android devices by tapping on the display. With just two touches, the software lets its users activate and disable the screen without pressing an electric button. This approach uses a small amount of system energy, although it is similar to nothing, unlike other approaches. Use the application widget to simulate the same touch two times to disable your screen less frequently. You have the power to turn on and off the display so that each of the settings can be activated or deactivated. Key Features of Double Tap Screen On and Off 1.1.3.2 Ad-Free App: Double tap to Screen On Doubletap to Screen Off only works on Home Screen and Lock Screen Fater lock as well as unlocking time Save the power button from being damage even after multiple uses More than 5,000,000+ installation from Google Playstore with 3.9/5 average users rating And More...
